### Description

Featured in LA Times, CNET, CBS Early Show, theiPhoneMom.com, Ventura County Star and winner of the PTPA Media (Parent Tested Parent Approved) Seal of Approval

Welcome to iStoryTime, a library of narrated children's books for the iPhone™

iStoryTime brings the joy of a kids' book to the convenience of your iPhone or iPod® touch. iStoryTime books are illustrated and narrated, so your child can enjoy the book even when you're busy. Best of all, the app is drop-dead simple to use because it's actually designed for kids 2-years and up.

Pages can be turned automatically or manually depending on the age and preference of the user.

Waiting for dinner to come at a restaurant? Long airplane or train trip? Need ten more minutes to finish the grocery shopping? Hand your kid iStoryTime and let us read to them. With iStoryTime you'll always have a great book on hand to entertain and educate the kids, rather than resorting to movies or video games.

#### FEATURES:

- Automatic navigation and narration make it incredibly simple to use
- Narration options: adult narration or silent for self-reading
- Automatic or manual page turn
- Onscreen text helps beginning readers make associations between the words they hear and see
